

Linley Point Neighbourhood Watch

NEIGHBOURHOOD WATCH BULLETIN - DECEMBER 2011

Hi Everyone

We certainly have had a challenging year this year! Thankfully this has not resulted in more crime here with only two reported break-ins due to your increased vigilance and networking with your neighbours.

BUT it is now that time of the year where we relax and enjoy life and get careless with our security, attracting the bad guys with doors and windows left unlocked and allowing easy, quick access to our homes.

Once again, Chatswood police have been very cooperative and responsive to our requests.

Some suggestions to assist making your lives more secure:

Use laminated glass or shatter-resistant film on windows

Install key-operated locks on all windows

Secure garages and sheds on your property

Engrave your property with your name and/or driver licence number

Photograph property you cannot engrave

It is pleasing to see so many new neighbours attending the excellent Linley Point Get-togethers so our networking continues to improve making it even more difficult for people wanting to violate our community. Carl Moser continues to support us with his website/photos and newsletters.

Always report any disturbances to me after police have been notified. Our quick response email list gives us forewarning of any potential threats.

Once again many thanks for your strong support throughout the year. Jan joins me in wishing you a very Merry Xmas and a happy, healthy and crime free New Year.

Xmas cheers

Greg Griffiths
